

Streamline Your Mortgage Lending Process with Certified Credit's

# Encompass Partner Connect Integration

From lead generation to post-closing QC and everything in between, **never leave your Encompass® environment!** Certified Credit's full suite of mortgage lending solutions integrates with many of the industry's preferred systems, including Encompass Partner Connect (EPC), to ensure simple, streamlined authorization, ordering, and process management.

Our full suite of mortgage lending solutions integrates with many industry-preferred systems, providing:

### Strategic End-to-End Automation

Automate the mortgage lending process, reducing manual errors, eliminating unnecessary reports, and increasing productivity.

### Improved Customer Experience

Provide a better borrower experience with faster turnaround times and more accurate information, enhancing your reputation and building customer loyalty.

### One Unified Platform

Access all your mortgage lending solutions in one place, eliminating the need for multiple logins and interfaces, and simplify your workflow while improving user experience.

## Explore the Extensive Range of Products Available in EPC
